

*Bldg 63-1
(Transportation)*

8 May 1964

Mr. Lloyd:

Existing economy measures militate against adoption of the attached proposal. Furthermore, even without such economy measures, I do not believe the frequency of helicopter use at the Headquarters Building warrants initiative on our part for something which will be a real headache and a support burden. I am not aware of any pressure by operating elements for a heliport at this location. Unless you have information to the contrary, I recommend that you disapprove the attached proposal on the basis that it is not now Agency intent to provide Headquarters helicopter facilities.
